lastudent.conference@gmail.com

The event

A 1 or more days virtual conference for undergraduate, Masters and PhD students across Latin America;

Each presentation will have 15 minutes
+ 3-5 minutes for questions;

Abstracts and presentations can be made in Spanish, Portuguese or English;

Abstracts will be compiled into a summary book (ISSN to be defined);

Platform: Zoom Cloud Meetings.

Presentations selection

- 300-500 words abstract submission + optional captioned image;
- Experts committee for each topic will grade the abstracts (3 experts by theme);
- Themes (abstracts must be related to geophysics):
 - Borehole Geophysics;
 - Gravity and Geomagnetic Methods;
 - Geothermal;
 - Electric and Electromagnetic Methods;
 - Machine Learning and Data Analytics;
 - Mining;
 - Near Surface;
 - Reservoir Characterization;
 - Risk Management;
 - Rock Physics;
 - Seismic Acquisition and Processing;
 - Seismic Interpretation.

Awards

Awards will be given for the best abstracts and presentations;

We are looking for sponsors to guarantee prizes.

Organization

We invite students from all countries in Latin America to participate in the event organization;

Certificates of participation will be issued by SEG;
