

Nov 12-17, 2023
**Latin
MAG** 7th Biennial Meeting
Rio de Janeiro | Brazil

Fourth circular: 7th LatinMag Biennial Meeting (2023)

The Latin American Association of Paleomagnetism and Geomagnetism (LatinMag) announces the postponement of the deadline for early bird registration (with discount) for the 7th LatinMag Biennial Meeting to **July 10, 2023**.

Due to administrative matters, the organizing committee of the event emphasizes that this will be the final opportunity to secure registrations for the event at the best available fees.

Regular registrations will begin on **July 11, 2023**, according to the schedule available at <https://www.latinmag2023-rj.com/br/calendar/>.

Sincerely,

Local Organizing Committee – 7th LatinMag Biennial Meeting

1. Speakers

The Organizing Committee is pleased to announce the invited speakers for the 7th LatinMag Biennial Meeting:

- **Dra. Agathe Lisé-Pronovost** - School of Geography, Earth & Atmospheric Sciences, University of Melbourne (Australia);
- **Dr. Joshua M. Feinberg** - Institute for Rock Magnetism, University of Minnesota (USA);
- **Dr. Mathew Domeier** - Centre for Planetary Habitability, University of Oslo (Norway).

For further information, visit www.latinmag2023-rj.com/invited-speakers/.

2. Workshop

The 7th LatinMag Biennial Meeting will offer participants the opportunity to attend the workshop "**Magnetic Fabric of Rocks: Theory, Applications and Practical Guidelines**", to be conducted by Dr. Martin Chadima from AGICO, Inc. (Czech Republic). This workshop will provide a brief and concise overview of techniques for investigating the structure of rocks using anisotropic behavior of magnetic properties, with a main focus on anisotropy of magnetic susceptibility (AMS). For more information, please visit www.latinmag2023-rj.com/br/martin/.

3. Daniel Valêncio Awards

The Scientific Committee announced on June 20, 2023, that researcher Dr. Augusto Rapalini (Universidad de Buenos Aires) has been chosen as the recipient of the "Daniel Valêncio Award" due to his significant contributions to the field of Paleomagnetism and Geomagnetism in Latin America. The National and Local Organizing Committees applaud the excellent choice and congratulate prof. Augusto Rapalini on this well-deserved honor.

4. Roberto Molina Award

The Scientific and National Committees announced on June 20, 2023, the establishment of the "Roberto Molina Award" starting from the 7th LatinMag Biennial Meeting. This award will be given to the best works presented by participating students in the oral and poster categories.
