AIMS & SCOPE

The *Journal of South American Earth Sciences* provides an international medium for the publication of scientific work concerned with all aspects of the **Earth Sciences** in the **South American continent: Mexico to Argentina and adjacent regions of the Caribbean, Central America and Antarctic Peninsula**.

Papers must have a regional appeal and should present work of more than local significance. Research papers dealing with the **regional geology** of South American cratons and mobile belts, within the following research fields:

- Economic geology, metallogenesis and hydrocarbon genesis and reservoirs
- Geophysics, geochemistry, volcanology, igneous and metamorphic petrology
- Tectonics, neo- and seismotectonics and geodynamic modeling
- Geomorphology, geological hazards and soil research
- Stratigraphy, sedimentology, structure and basin evolution
- Paleontology, paleoecology, paleoclimatology and Quaternary geology

New developments in already established regional projects and new initiatives dealing with the geology of the continent will be summarized and presented on a regular basis. Short notes, discussions, book reviews and conference and workshop reports will also be included when relevant.

Funding body agreements and policies: Elsevier has established agreements and developed policies to allow authors whose articles appear in journals published by Elsevier, to comply with potential manuscript archiving requirements as specified as conditions of their grant awards. To learn more about existing agreements and policies please visit <http://www.elsevier.com/fundingbodies>.

Language (usage and editing services): Please write your text in good English (American or British usage is accepted, but not a mixture of these). Authors who feel their English language manuscript may require editing to eliminate possible grammatical or spelling errors and to conform to correct scientific English may wish to use the English Language Editing service available from Elsevier's WebShop <http://webshop.elsevier.com/languageediting/> or visit our customer support site <http://service.elsevier.com> for more information.

Illustration services: Elsevier's WebShop (<http://webshop.elsevier.com/illustrationservices>) offers Illustration Services to authors preparing to submit a manuscript but concerned about the quality of the images accompanying their article. Elsevier's expert illustrators can produce scientific, technical and medical-style images, as well as a full range of charts, tables and graphs. Image 'polishing' is also available, where our illustrators take your image(s) and improve them to a professional standard. Please visit the website to find out more.
